

Shruti Harayan

Software Developer

shrutiharayan06@gmail.com | Mumbai | GitHub | LinkedIn | Portfolio

Summary

Postgraduate in Information Technology with a strong academic background and a focus on software development. Skilled in building scalable applications and solving real-world problems using modern technologies. Seeking an entry-level software developer role to apply technical skills and grow in a professional environment.

Education

Master of Science in IT | Ramanand Arya D.A.V. College, Mumbai University | CGPA: **8.98** 2024–2026
Bachelor of Science in IT | Ramanand Arya D.A.V. College, Mumbai University CGPA: **9.88** 2021–2024
HSC (12th) | Ramanand Arya D.A.V. College, Mumbai – **96.33%** 2021
SSC (10th) | Indian Education Society, Mumbai – **87.20%** 2019

Technical Skills

Languages: Python, JavaScript, TypeScript
Backend: FastAPI, REST APIs
Tools: Git, Docker, Gen AI Tools, LLMs
Frontend: React, HTML5, CSS3
Database: PostgreSQL, MySQL
Concepts : OOPs

Work Experience

College Enquiry Chatbot (Internship Project - Msc. IT) Scored- 98/100 | GitHub Dec 2024–May 2025

- Developed a web-based AI chatbot to automate college enquiry handling, reducing manual support workload by **60%** and enabling 24/7 query resolution.
- Led backend development and Dialogflow integration, designing intents, training phrases, and webhook logic for accurate NLP-based responses.

Tech Stack: Python (Flask), DialogFlow, JavaScript, HTML, CSS, Google Cloud Console

Projects

GradeFlow - Web-based Grading and Marks Management System | GitHub | LIVE Nov 2025–Feb 2026

- Developed a full-stack academic grading platform that automated rule-based marks calculation, reducing manual errors by **70%** and grading time by **40%**; awarded **150/150** as the final-year project; containerized using Docker.
- Implemented role-based access, automated calculations, & version-controlled submissions with Excel export.

Tech Stack: Typescript, React, RestAPI, PostgreSQL, Python(FastAPI), Tailwind CSS, Docker, Docker Compose

AI Resume Analyzer | GitHub Jul 2025–Sep 2025

- Developed an AI-powered resume analyzer using SBERT embeddings and LLM integration, achieving **30%** higher matching accuracy and reducing manual screening effort by **50%**.
- Implemented semantic similarity scoring and feedback to enhance candidate evaluation & resume optimization.

Tech Stack: React, JavaScript, SQLite, Python (FastAPI), NLP (SBERT), Groq LLM

Book Buffet | GitHub Aug 2023–Jan 2024

- Built a library management system reducing manual workload by **60%** with automated cataloging & circulation.
- Implemented search, issue/return tracking, real-time availability, & improved data access speed by **35%**.

Tech Stack: Python (Tkinter), SQLite

Publication

A Hybrid AI-Powered Resume Screening Framework Using Semantic Similarity and Keyword Intelligence. | Certificate

Galaxy Link –International Multidisciplinary Half-Yearly Research Journal, Vol. XIV, Issue I (2025–26)

- Proposed a hybrid AI framework combining semantic similarity and keyword intelligence for resume screening.
- Improved candidate-job matching accuracy and reduced manual screening effort.

Achievements

- 1st Rank – M.Sc IT Part-I and Part II, FY B.Sc IT (academics)
- 2nd Rank – TY & SY B.Sc IT (academics), Resume Writing Competition
- Subject Topper – Advanced Web Programming, Project Dissertation
